Join us to visit a land conservation success story made possible by the State, towns, private donors, and local organizations coming together.

Enjoy a walk exploring the site (inclement weather cancels), and talk with State legislators, other elected officials, land trust representatives, and community leaders about our state, regional, and local conservation priorities.

The event is bipartisan, free, and open to land trust members and others who are interested. Visit [here](#) for a complete Summer 2018 schedule. Contact Christopher Shepard at cshepard@ctconservation.org with questions.

The Connecticut Land Conservation Council advocates for land conservation, stewardship and funding, and works to ensure the long-term strength and viability of the land conservation community statewide.
